How are you looking forward to performing in the mountains at EuroSki Pride 2010?

I'm looking forward to performing up there very much indeed, there is something about being up a mountain, just ask any Cow Boy !!!

Have you ever been skiing before?

I have been skiing 3 times before (all gay ski weeks) and will be going on a straight ski week in Jan 2010

Why do you think gay ski weeks are becoming so popular?

The quality of the hotels and ski resorts are 2nd to none, and they always provide a full programme of entertainment for every afternoon/evening as well as having great après ski too

Is it a myth that gay men and women don't like the great outdoors?

I know many a gay man that loves the Great outdoors, as for the woman; I'm not the best one to ask! I'm sure Sandra Bernhard could tell you more

How do you think this event is going to differ from others that are taking place in 2010?

I'm there !!!

What do you think is going to be the most fun thing happening while you are out there?

The pride ski run is real fun and a right laugh too, seeing 100 drag queens skiing down a mountain, in enough to put the willies up anyone!!

What would be your top fashion tip for cavorting around in the snow?

Make sure you have a Great Ski Hat and gloves to match and if you really wanna show off, get matching ears muffs !

Are you hoping all those Austrian snow man have big snow balls?

I have met many a Snowman over the years and they all seem to be blessed in that area !! I'm sure when they see me in my full glory, there Snow Balls will start to melt !!
